**Parking:** Paid parking is available behind Candy's Office and O'Riley's Irish Pub. To enter the parking lot, you **MUST** enter Government Street from Baylen Street. At the southeast corner of the West Government Street and [South Baylen Street](#) intersection, there is a two story office building with wrought iron railing ([101 W. Government Street](#)). The driveway to access the paid parking area is on the east side of this building, and you will more than likely have to get through the barricade on Government Street. If there is an officer on duty tell him you are parking for a private party to get through. Once you turn into the driveway, travel straight ahead 3 to 4 car lengths until you see an opening in the fence behind the two story building (the opening will be on your right). Pull into the fenced off parking area, park and pay. You can also turn left and look for more paid parking closer to the back of the buildings. The paid parking spots will be on your left. *NOTE:* All of the parking spots in line with the dumpster are privately owned and are not for our use (your vehicle will be towed or blocked in by the owner). Guests are not required to park in this lot. There are many available lots in Downtown Pensacola but parking may be difficult because it is Gallery Night.
